

Annex 1 d) to Declaration of Participation - Livestock Producer

Using this form, the livestock producer shall state from which point on (implementation date) he shall be implementing the requirements in the animal welfare initiative - should his site be licensed.

The livestock producer shall send this data sheet together with the Declaration of Participation to his coordinator. His coordinator will register the location notified by him using the information on this data sheet in the *Initiative Tierwohl* animal welfare initiative database.

To the Coordinator

Data Sheet for Registration to the programme 2018 – 2020

Please complete a separate data sheet for each location number (VVVO-Number)!

All fattening sheds, which are placed in one location (same address), should participate in the Animal Welfare Initiative.

Broiler Production

Name of the farm/agricultural business:
Registration number/ location number (in Germany VVVO):
Telephone or mobile number for queries:

Per year at the registered location*

Kilogram
Live weight

of broilers will be delivered for slaughter.

*For the contract term the year shall commence as of the implementation date.

As of

Day/month/year

I will be implementing the following criteria.

In the initial phase the implementation date must be between end of the registration phase and 31.03.2018. After expiry of the initial phase the implementation date must be within a period of 5 months following registration.

Due to statutory regulations, I am already obligated to implement a greater amount of available space ($\leq 35 \text{ kg/m}^2$)

no

yes, specifically:

I am aware that I may participate in the Animal Welfare Initiative - Poultry (Initiative Tierwohl Geflügel) but shall not receive any animal welfare payments if I am already obligated to implement a greater amount of available space due to regulations contained in animal protection legislation.

No.	Criteria
Basic requirements	
1	Basic criteria for livestock production, hygiene, animal health
2	Origin and Marketing: <i>Procurement of day-old-chicks from QS hatcheries</i>
3	Monitoring and Care of Livestock: <i>Measures to improve foot pad health</i>
4	Handling of livestock when loading: <i>Instructions for preliminary destocking (only for broilers)</i>
5	Proof of proficiency of the livestock farmer: <i>Proof of annual training of livestock farmer</i>
6	Documentation of Results from the Slaughtering Process: <i>Participation in animal welfare control plan</i>
Mandatory requirements	
1	Additional activity options
2	Bigger space allowances
3	Shed climate check
4	Drinking water check

Details regarding the aforementioned criteria can be found in the Agricultural Manual - Catalogue of Criteria - Poultry.

Animal welfare payments

For the implementation of the documented requirements during period of entitlement, the operating company shall pay an animal welfare payment in the amount of 2,75 cent per kilogram live weight to entitled livestock producers.

The animal welfare payment shall be made based on location via one of the clearing houses appointed by the sponsoring company.

Livestock owners, who are already obligated to implement a greater amount of available space due regulations contained in animal protection legislation shall not receive animal welfare payments (for example in Germany, pursuant to current legislation, The Order on the Protection of Animals and the Keeping of Production Animals [Tierschutz-Nutztierhaltungsverordnung], or the European Organic Regulations).
