1 Introduction

1.1 General information
You are a participant in the "Animal Welfare Initiative" and would like to enter your quantities for pig or poultry online. This manual will show you how to use the "BeVision" system. You will also find useful tips, such as error handling. By entering your quantities online and saving them, you pass on your data to the Animal Welfare Initiative and the Animal Welfare Clearing House for further processing. This manual will show you with detailed screenshots how you can use the "BeVision" system.

1.2 System requirements
To access the database, you need a PC with Internet access and an Internet browser, e.g. Firefox. In addition, a programme for reading and opening PDF documents should be installed on your computer (e.g. Adobe Reader).

1.3 Access data
You will receive your access data by e-mail. Please log in to your protected area using your personal user name (QS-ID) and password. You can access the database via the following internet address: https://tierwohl.bevision.app/
1.4 Registration
When you access the website, you will be taken to the login dialogue (Figure 1). Please enter your access data here (user name/login and password). To ensure maximum security, the password must be changed at least every 365 days. You will be prompted to do this automatically by the system when you log in.

1.5 Password policy

**Password Policy**

The security of your account is very important to us. Therefore the following requirements apply to the password:

Make sure that nobody but you knows your personal password.

Choose a complex password that cannot be guessed very easily.

- The password must be at least 15 characters long
- The user name (or parts thereof) must not be included
- You cannot use the last six passwords again
- At least 3 of the following 4 rules must be fulfilled:
  - One capital letter
  - One lower case letter
  - One number
  - One special character (e.g. #?...)
- The password must be changed at least every 365 days.

Figure 2: Password Policy
1.6 Forgotten password

If you have forgotten your password, you can retrieve it using the “Forgot password?” function (Figure 3).

Clicking opens a new window. Please enter your user name or your email address here. Complete this process by clicking on “Submit” (Figure 4). A new password will then be sent to your e-mail address or to the address stored with the respective user name.
1.7 Logging out

In order to avoid misuse, you should log out of the online portal properly. You will find the "Logout" button in the top right-hand corner, as shown in Figure 5. After logging out, the start page for selecting the login dialogue appears again.

2.1 Dashboard

After successfully logging in to BeVision, you will see your personal dashboard. (Figure 6).

Figure 6: Dashboard Animal Welfare abattoir

On the left-hand side, you can choose between 5 different menu items as shown in Figure 7, which are also displayed as icons to help you:

2.2 Reporting

The second dialogue "Reporting" provides you with reports on your settlements or quantity of livestock owners.

Figure 8: Reporting for abattoir
2.3 Transfer of quantities of goods

In the third dialogue "TRANSFER OF QUANTITY OF GOODS" you can enter and cancel the movement data for the respective livestock owners. By entering the quantities into the system, you pass on your data for further processing to the Animal Welfare Initiative and the Animal Welfare Clearing House. In the dialogue "TRANSFER OF QUANTITY OF GOODS" you can enter the movement data for one or more animal owners by simply selecting the orange highlighted field "Add quantity of good".

**Figure 9: Input and search mask**

**A: Input of animal quantity data:**

Now the following mask opens, which you fill in one field after the other with the required data.

**Figure 10: Entering a new quantity**
Your QS-ID is automatically displayed for you as an abattoir. The following fields must now be filled in by you:

Table 1: Input fields quantities

**B: Cancellation or correction quantities**

To cancel a quantity, you have the possibility to do this via the "Booking: - negative". To do this, you must enter the quantity message, analogous to the booking of the quantity to be canceled, and only select the "-negative" variant in the "Transfer" field. You can therefore cancel quantities in full or make partial cancellations or corrections. For the cancellation of a quantity (negative booking) a comment is mandatory so that the booking can be saved.
C: Saving movement data

Figure 11: Saving data sets

(1) You can enter as many records as you like for another entry of quantities of the same type before saving them. To do this, simply select the orange button "Add new row".

(2) To save your entries, select the orange button "Save". If your entries have been saved successfully, following green message will appear on the top of the page:

Transfer of Quantity of Goods successfully saved.

Then, you will be automatically forwarded to the overview of your saved quantity reports. Here you can search for them, open them and edit them if necessary.
D: Display of quantity notifications
In the dialogue "TRANSFER OF QUANTITY OF GOODS" you will find an overview of all submitted quantities.

Figure 12: Display of quantities

On the far right of the table bar, you can change the column order to suit your preferences by clicking on the equal sign to the corresponding position in the sequence.

Figure 13: Configuration table
To move to the far right of the table, scroll all the way down the table and move the blue bar to the right. These configuration options are available on all dialogues that show a table.

2.4 Document management

In the fourth menu item, you will find an overview of all documents or settlements for the participation fee.

![Figure 16: Document management](image)

The first part of this consists of a search mask that allows you to filter your documents.

![Figure 17: Search mask](image)

The display screen forms the second part of the document management. Here you can read your documents by selecting the 3-point menu on the right-hand side and clicking on display for downloading.
